Always fry with Cottolene

Whatever you fry with Cottolene is delicious and digestible. The true flavor of chicken, fish, potatoes, or any other fried foods is enhanced.

Cottolene has done much to do away with the old prejudice against fried foods. As it does not soak into the food, it performs fully the real function of a frying agent-it cooks the food and adds not only to its flavor but to its wholesomeness.

Cottolene

For more than a quarter of a century Cottolene has held its own place, in a class by itself. There is no substitute for it,

Always remember to use one-third less Cottolene than you would of butter or lard.

Since Cottolene does not absorb tastes or odors, it may be used over and over again for frying. Heat it slowly,

Cottolene is packed in pails of various sizes for your convenience. Arrange with your grocer for a regular supply.
